## Oegstgeest

### M. Harpertszoon Tromplaan 222

On the Maarten Harpertszoon Tromplaan, in the heart of Oegstgeest (Zeeheldenbuurt/the 'Sea-heroes Area'), there are four small-scale apartment complexes. Surrounded by lots of greenery in a quiet residential area. Because of its location and small scale, this property stands out positively from many other complexes in the area. They are therefore highly sought-after. No 222 is located on nr. four building (far most East) and on the third level and this gives you a nice view from the frontside window. Both front and back are beautiful tall plane trees, making the house cool in summer and giving it a very 'green' feel. The house is very light because of extra windows on the side. Leiden railway station is only 2.9 km away. The luxurious Lange Voort shopping centre is just around the corner. This house has recently been completely renovated. New kitchen, bathroom and toilet and nice floorings.
